

ANTONOV AN-26

Aircraft Specifications

The Antonov AN-26 is a 2 engine turboprop cargo plane with a max. payload of up to 5,500 kilogramme and a max. volume up to 50 qm. This plane is comparable to the ATR 42, Fokker 27 etc., but with the big advantage of the rear loadingramp. The other mentioned aircrafttypes are unable to load bulky cargo especially if it is long and wide. The cabin is pressurized.
