

REIMS/CESSNA F406 CARAVAN II

Aircraft Specifications

The F406 is an unpressurized aircraft, powered by two Pratt & Whitney turboprop engines. It was designed to criteria offering rapidity, power, performance, versatility and flexibility. The F406 is certified to fly under instrument flight rules (IFR) and can also operate from small airfields. The large cargo door enables to load entire pallets. In pax configuration it can take up to 9 passengers – also a mixed version is possible.
